CSS3 lab

1- Using font awesome CDN to create the icons and flex box to make the Layout

https://stackpath.bootstrapcdn.com/font-awesome/4.7.0/css/font awesome.min.css"
**icons html code:**
```
<i class="fa fa-bullhorn"></i>
<i class="fa fa-comments"></i>
<i class="fa fa-cloud-download"></i>
<i class="fa fa-leaf"></i>
<i class="fa fa-cogs"></i>
<i class="fa fa-heart"></i>
```

2- use grid system to make a layout of an image gallery

3- Hovering on colored div makes it larger and give it shadow with a transition 1 sec the man translated to move left and right without hovering and keeps repeating
